Management Discussion and Analysis

Q2 2023 - April 1, 2023 - June 30, 2023

On behalf of the Board of Directors of Regency Petroleum Company Limited or "RPL" we present our second quarter report of the company since listing on the Jamaica Stock Exchange on December 15, 2022. This report covers the period April 1, 2023 - June 30, 2023, and conforms with International Financial Reporting Standards (IFRS) as prescribed by the International Accounting Standard Board (IASB).

HIGHLIGHTS

Regency generated \$179.79 million in sales for the period, a marginal decline from the \$179.89 million earned in the same period for 2022. The company benefited from higher fuel prices in 2022 which have moderated in 2023 as global commodity prices cooled following the initial shocks. In other words, the decrease in fuel prices have resulted in decreased revenues even though our sales volumes have increased.

The company's volume of fuel sold between the LPG and gasoline products improved by 51% relative to the 24% year over year decline in petroleum prices. This demonstrates that the company has remained laser focused on growing our brand and putting the capital invested into the business to work.

Sales

+51%

Total volume sold (QoQ)

+389%

Total LPG volume sold (QoQ)

-7.6%

Total motor fuel volume sold (QoQ)

HIGHLIGHTS

The company does not control the market prices offered on petroleum products and instead directs its attention on volumes and gross profits.

Gross profit decreased by 20% from \$34 million to \$27.15 million as the company experienced higher trucking costs driven by inflation and increased business activity. The reduction in gross profit also meant gross margins decreased from 18.90% to 15.10%.

Total expenses were 98% higher at \$12.24 million as the company incurred additional fees related to being a publicly listed company such as Directors' fees, higher audit and accounting fees, along with higher bank charges and advertising and promotion, as business ramps up for our expansion. There was a reversal of a bad debt provision in the period as we resolved some accounts.

Finance costs increased from \$945,522 to \$9.66 million as we recorded a one-off \$8.97 million in costs related to the issuance of our secured bonds. As a result, net profit decreased from \$15.42 million to \$5.27 million, a 66% decline over the comparative period. However, due to our initial 100% tax remission during the first five years after listing, we were not subject to income tax. Due to the company having new ordinary shares related to our initial public offering (IPO), earnings per share declined from \$0.013 to \$0.004.

Year-To-Date (January to June 2023)

For the first half of 2023, Regency grew revenue 9% from \$332.04 million to \$363.27 million as our moves to grow our market presence translated to higher volumes being sold during the period. However, the higher trucking costs and reduced prices saw gross profit decline 4% to \$59.66 million with gross profit margins moving from 18.77% to 16.42%.

Total expenses grew 114% from \$11.33 million to \$24.29 million which relates to our increased expenses as a listed entity alongside higher costs related to the development of different business segments. Regency also did not benefit from loyalty credits during the period compared to last year.

Due to the rise in finance costs from \$2.03 million to \$10.43 million, profit before taxation declined 51% from \$51.07 million to \$25.01 million. Net profit was 36% lower than the \$38.86 million in the prior period. Earnings per share decreased from \$0.034 to \$0.017 since there are additional shares in the current period due to our IPO.

BALANCE SHEET

Our asset base increased 162% from \$204.83 million to \$537.27 million as our non-current assets nearly tripled to \$354.64 million due to the two new service stations under property, plant and equipment along with the jump in current assets to \$182.63 million. We have been diligent with the management of our accounts receivables from our clients. We also had \$83.43 million as a bond receivable from the issuance of tranche A of our recently issued bond. The company's cash position was \$13.33 million at the end of the second quarter as the company continued its investment in the new locations and purchase of larger quantities of petroleum in the period.

Total liabilities increased 32% from \$93.62 million to \$123.44 million as the company accounted for the new \$92.40 million bond related to RPL's future service station. Current liabilities decreased 62% from \$58.68 million to \$24.68 million. Shareholders equity grew 272% to \$413.84 million as we benefited from our December IPO and increased our retained earnings balance.

Service Station Update

We expected the service stations in Paradise Pen and Negril, Westmoreland to have been open by the end of the second quarter based on available information we had at the time. However, there were additional delays related to the delivery of final components for the locations and the passing of the main contractor for one of the projects. While we cannot control some delays related to processing of equipment and events with contractors, we must apologize to our shareholders who were expecting the stations to have started operations at the beginning of the third quarter.

We were able to find a new contractor for one of the stations and will host the opening ceremony for our second service station at Paradise Pen on August 16, 2023. We are working overtime to ensure that the Negril service station is completed within the next eight weeks. We are being strict on meeting these new timelines as we have a commitment to our shareholders, customers and other stakeholders to deliver these projects which will add significant value to the market.

OUTLOOK

Our financial advisor GK Capital Management Limited arranged the issuance of a US\$1.40 million private placement in the form of secured notes due by 2025. The first tranche of US\$600,000 was issued on June 30 and the second tranche of US\$800,000 to be drawn down by September 29. This new capital will go towards the construction of a new service station on Spanish Town Road, St. Andrew which will be our first station outside of Cornwall County.

After the quarter, we announced our partnership with JusGas Distributors Limited who will be the primary distributor of our bulk LPG products in the corporate area of Kingston & St. Andrew. We are excited about this partnership as we will get the opportunity to build new relationships with businesses in the KSA region which will be a critical space for growth in the future.

RPL remaining debt free prior to the quarter end has allowed us to take on new opportunities that will begin to fully take shape over the next year. Our current focus is on growing our service station business while building our bulk LPG segment to deepen our reach in the Jamaican market. We are being deliberate about how we expand the retail segment of our LPG business with all profits reinvested to fuel the new business that will be gained going forward. This means that any moves within this segment will be carefully planned before any possible major capital expenditure.

Despite the equities market seeing a tumultuous first half, RPL's stock price increased from \$2.31 to \$2.76 during the second quarter with a new all-time high of \$3.00 being achieved on May 18. Our market capitalization at the end of June was \$3.96 billion with more than 7,500 shareholders.

We'd like to thank our numerous shareholders, customers and other stakeholders for giving us the opportunity to play our part in Jamaica's economic growth and development. We will not take the confidence vested in us for granted and seek to leverage all possible avenues to grow shareholder capital and give our final consumers a competitively priced product that gives value for money.

OUR COMMITMENT TO OUR SHAREHOLDERS

As we seek to remain transparent with our shareholders as a now publicly listed company, Regency Petroleum Limited (RPL) is committed to hosting quarterly Earnings Calls for our 2023 financial year.

These calls will be hosted by Learn Grow Invest Limited and will facilitate regular touchpoints between our shareholders and the leadership of RPL.

Stay tuned to our social media pages, website and the Jamaica Stock Exchange for the details of these calls throughout the year.

Thank you

Regency Petroleum Ltd.
